

# Why DONATE?

There is a small variety of specially adapted toys available, and they are significantly more expensive due to a limited market. RePlay for Kids produces a wide range of adapted toys, and gives them away (for free) to families and agencies with limited resources.

Your support will help us to improve the lives of children with disabilities, and will give your employees an opportunity for a hands-on volunteer service opportunity. Your business will also be listed on our website and mentioned in each presentation given at the beginning of every workshop. Additional benefits are listed under each sponsorship level. You will be invited to our adapted toy giveaway event at the end of the year to celebrate the year's success of adapting toys, and will witness families and agencies picking out the toys they need.

# Help Us HELP KIDS

**RePlay for Kids provides thousands of adapted toys to kids with disabilities.**

At RePlay for Kids, our mission is to increase the availability of toys and assistive devices for children with disabilities.

By having our volunteers repair and adapt a wide range of battery operated toys, we are able to make mainstream toys accessible to children with special needs.

Your sponsorship will also give your company exposure to thousands of volunteers from companies, organizations, schools, and hospitals, along with the agencies and families that will receive the toys and devices.

Contact us to discuss advertising opportunities on our cargo van - your company can be promoted as we drive from workshop to workshop!
